

November 23, 2020

Beginning Monday, November 23, 2020, Henry County Hospital implemented visitation guidelines based on the statewide color alert system. This system has four levels-yellow, orange, red, and purple based on data about how COVID-19 is spreading, including state and county public health information. This level is specific to our local COVID-19 situation in Henry County.

We appreciate your understanding as we work to keep our patients, staff, and visitors safe and limit the spread of COVID-19.

VISITATION LEVELS

Less Restricted

More Restricted

LEVEL UPDATES

Visitation levels will be updated on Thursday evenings and implemented the following morning should there be a change from the previous week. Updates will be posted at all open entrances and communicated via Henry County Hospital's Facebook page and website. No additional entrances will be opened. Patient and visitors should enter through the Riverview Entrance or Emergency Care Services Department. Henry County Hospital reserves the right to change to a level that differs from the state-issued level based on an internal decision process.

GUIDELINES FOR VISITORS

Patients and visitors are expected to follow all guidelines to limit the spread of COVID-19. Visitors will have their temperature taken upon arrival, be asked to wear a mask, and require to follow social distancing guidelines while in the Hospital. If you are not feeling well, we ask that you do not visit a patient at Henry County Hospital.

EXCEPTIONS TO THESE GUIDELINES

A patient's care team may make recommendations for exceptions to the Henry County Hospital visitation guidelines for circumstances where the guidelines have an impact on the quality of patient care. When appropriate, these circumstances would be approved through Incident Command. Families should discuss concerns with the patient's care team.

See the following full visitation guidelines.

Please note: guidelines vary at each level based on whether the patient is COVID-19 positive or negative. COVID-19 positive guidelines apply to any patient suspected of having COVID-19 (who's test results are pending).

Patient Type	Level Yellow	Level Orange	Level Red	Level Purple
Hospitalized Patients ICU, Swing Bed, & Inpatient	COVID-19 Positive/Quarantined: NO VISITORS	COVID-19 Positive/Quarantined: NO VISITORS	COVID-19 Positive/Quarantined: NO VISITORS	COVID-19 Positive/Quarantined: NO VISITORS
